

Luminaries PR

God led shepherds and the Magi to Jesus with the light of the night stars. Light a starry path for your Advent program visitors with these children-made luminaries.

You will need:

- Paper lunch bags
- Scissors
- Tea candles
- Sand

To do:

With the bag folded flat as it is when purchased, ask the children to make small cuts into the bags. Then show the children how to fold back the cuts as shown in the diagram.

The evening of the program, place the bags around the entryway. Pour a small scoop of sand in the bottom of each bag to help weight the bags. Place lit tea candles inside the bag on the sand piles. See how the path becomes brightly lit.
