

Cloud Gazing ☺ ALL

After what may seem like an endless number of cloudy days, take the children outside for some cloud gazing. Try to find different shapes. Take turns describing a shape in the sky and invite others to find the shape before it changes. Remind them that God gives us both these beautiful clouds and our imaginations.

You will need:

Construction paper

Fiberfill batting

Glue

To do:

Recreate the cloud shapes on construction paper using fiberfill and glue.
