CHURCH
MANAGER

LESS TIME ON MANAGEMENT. MORE TIME ON MISSION.

With OSV Church Manager, experience a Catholic church management solution that offers all the benefits without the burden. Our solution will save your staff time and money. Input from parishes just like yours has inspired OSV to make our product intuitive and easy to use, so your staff doesn't require a PhD in technology. With everything your team needs in a single system, you can stay informed about your parish, stay connected with parishioners, and easily maintain records, finances, and funds.

- Everything you need in one system
- Save time and resources
- Easy to use and intuitive
- Keep data safe, secure, and up-to-date
- Outstanding customer service and support

CHURCH
MANAGER

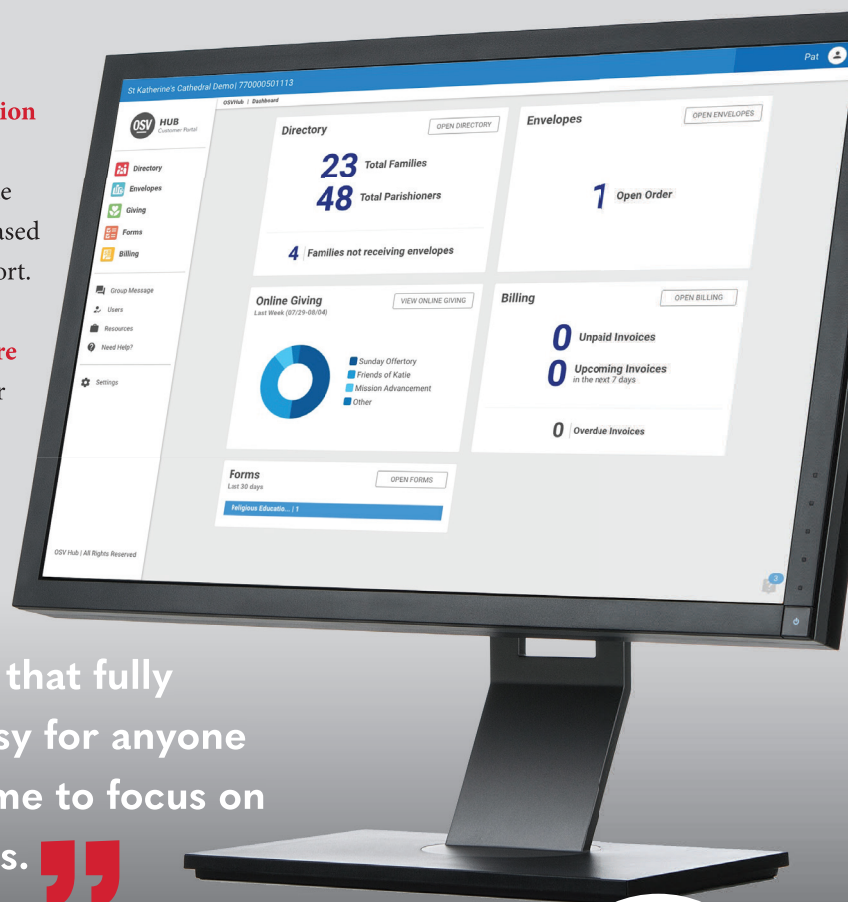

SOFTWARE SOLUTIONS FROM A CATHOLIC COMPANY.

OSV has created a Catholic solution built around the parish process, incorporating our understanding of where our solution can fill in gaps. So, say goodbye to extra passwords and usernames. With our **Single Sign-on System**, your staff can simply and effectively integrate your **Envelopes** and **Online Giving** into your directory and parishioner records. These direct integrations will eliminate the extra work of maintaining envelope lists, give you the convenience of barcode support for entering contributions, and simply match-up parishioners' Online Giving accounts to their records in your database.

We've made everything easier for your parish. From our **Smart Search** feature, which automatically suggests corrections, to **Label Tagging**, allowing you to segment and identify parishioners by keywords you create, such as alter server, bible study member, or with an unlimited number of your own custom descriptors. Stay in touch with **Group Messaging**, allowing you to contact groups of parishioners with ease and simplify keeping your parishioners' records correct and current with **Member & Family Census** and **Life Events** features.

And we haven't forgotten the person on your team who handles finances. **Contribution Tracking** and our **QuickBooks® integration** allow parishes like yours to easily manage finances, provide tax statements, and export reports without having to own and operate another system. **Guest gifts** can also automatically be matched based on contact information to save your staff even more time and effort.

Not only can you rest at ease knowing your data is **safe and secure** from the beginning with our migration process and ongoing after implementation, but our exemplary **service and support** teams will always be available to help. Because at OSV, we are sensitive to the challenges that parishes face and have the experience to support your challenges today and into the future.

“OSV truly has created a solution that fully considers the parish process. It is easy for anyone to use and will allow our staff more time to focus on our mission and ministries.”

Ann Mitchinson
Administrator - Sacred Heart
Catholic Church, Covina, CA
